Merrimack Montessori School is committed to serving families in need of financial support to educate their three to five year old children. We are committed to this support and award financial assistance on an annual basis. Through this assistance Merrimack Montessori School endeavors to impact children from broad cultural and socioeconomic backgrounds. Our Financial Assistance Program is funded through the Merrimack Montessori School annual budget, the Sisters of St. Joseph and through the Juliet Nagle Scholarship Fund.

Decisions for the Financial Assistance are made in conjunction with the Finance Office of the Sisters of St. Joseph in Brighton, Massachusetts. All awards are made annually with respect to the needs of each individual family, the needs of an individual in respect to the other applicants, and the needs of the school. No award is for full tuition; each family will be asked to contribute to their child's tuition for the year. Tuition will not be granted if there are outstanding tuition debts from the previous year. Information regarding awards to recipients is confidential and is not a part of your child's academic record.
